The first of these is the fact that the  
 number of people who are employed in the  
 service of the government is increasing  
 rapidly. This is due to the fact that  
 the government is expanding its  
 activities in many fields, and  
 is therefore requiring more  
 personnel to carry out its  
 functions. This is particularly  
 true in the case of the  
 armed forces, which are  
 being expanded in size and  
 scope. The government is also  
 increasing its expenditure on  
 social services, and this is  
 leading to a corresponding  
 increase in the number of  
 people employed in the  
 public sector.
